

## GSSEF COVID-19 Guidelines for Mask Wearing

At Girl Scouts of Southeast Florida, there is nothing we take more seriously than the safety and wellbeing of our girls, volunteers, and Council staff. We have been closely monitoring the information regarding the COVID-19 virus shared by the Centers for Disease Control and Prevention (CDC), as well as GSUSA, and national public health officials to inform our decisions. New information is still being reported regularly, so we remain fluid in planning and scheduling, and thank our members for their flexibility. Please continue to monitor Council updates so we may all take the appropriate measures to ensure our Girl Scout family continues to have a safe, fun, one-of-a-kind experience. If you have any questions, please contact us at: [customer care@gssef.org](mailto:customer care@gssef.org).

- This guidance supersedes updates provided prior to 11/9/2021.
- This guidance should be followed by anyone who is not in quarantine or isolation due to experiencing COVID-19 symptoms and/or a confirmed case of COVID-19.
- GSSEF recommends maintaining 3 to 6 feet for social distancing, when possible.
- Volunteers are directed to follow Adult to Girl Ratio guidelines found in *Safety Activity Checkpoints*; there are no additional group gathering limitations required for the number of people meeting in one location. Access the most recent version of *Safety Activity Checkpoints* at: [www.gssef.org](http://www.gssef.org).
- Volunteers are expected to confirm and follow venue requirements to maintain compliance.
- It is not the Council's policy to ask about an individual member's vaccination status. No one should ask the vaccination status of a girl, family member, volunteer, etc. However, due to the close and personal nature of many troops and groups, one's vaccination status may be voluntarily shared and could lead to a logical modification to guidelines.
- This is not an exhaustive list of Girl Scout activities and should be used as a guide for like activities.
- For fully vaccinated individuals, a mask is not required *unless you have had confirmed close contact with a person who tested positive for COVID-19*; in that case, if asymptomatic, wear a mask indoors in public for 14 days after exposure or until a negative test result.
- For more information related to Travel, Camping, Camporees, or In-gatherings, please see the "GSSEF Camp Capacity Guidelines Adjusted for COVID-19 Community Transmission Rates" and the "GSSEF Communicable Disease Mitigation Guidelines."
- Children under the age of 2 are not required to wear masks.
- To find the county information needed to follow these guidelines, visit: <https://covid.cdc.gov/covid-data-tracker/#datatracker-home>

\*For purposes of this guidance, people are considered fully vaccinated 2 weeks after they have received the second dose in a 2-dose series (Pfizer-BioNTech or Moderna), or 2 weeks after they have received a single-dose vaccine (Johnson & Johnson/Janssen).
