

The New Learning Management System for Girl Scouts of Southeast Florida

gsLearn is within the MyGS tab on the www.gssef.org website. gsLearn empowers adult learners to complete Girl Scout volunteer training when and where works best for them.

Learners will have access to nationally produced, role-specific content that supports accuracy and consistency across the Girl Scout Movement, GSSEF-specific training modules, and professional development courses. The platform allows us to add new training content, alert you when there is something new for you to view and keeps track of completed trainings and achievements.
