

## Jeweler

## Badge Overview

Discover different ways to make jewelry. When you've earned this badge, you'll know how to make different kinds of jewelry.

## Badge Components

### 1. Get to know the tools of the trade

Watch this [video](#) where this jeweler describes the essential tools that you need to make jewelry!

### 2. Make jewelry with metal

For this step, you'll need to make sure that you have the right tools to make a piece of jewelry with metal. A kit like [this](#) has most of the necessary supplies—make sure to get beads, too!

- After you have the supplies you need, make a pair of earrings, a necklace, or a bracelet using a tutorial that you find. For example, here's a [tutorial](#) for how to make a bracelet.

### 3. Turn everyday objects into jewelry

It's time to get a little more creative! Use objects that you normally wouldn't think of to make a piece of jewelry.

- You can use items from nature like leaves or small twigs to make a necklace and flowers tied together to make a ring—or even a bracelet!

### 4. Create jewelry inspired by another culture

The Claddagh ring is a piece of jewelry that has been in the Irish tradition for hundreds of years.

- Watch this [video](#) to learn more about the Claddagh ring and then make a piece of jewelry of your own that embodies the three symbols of the Claddagh ring.

### 5. Make a sparkling gift

Now it's time to use your new jewelry skills! Make a gift for a friend or family member and make sure that it is meaningful—either making it symbolic of your relationship, a memory, or an occasion that the gift is for.
